

ACME CORPORATION

Carrier Integration Requirements

Document ID: INT-CAR-2027 | Version: 1.3 | Effective: January 1, 2027

1. Overview

This document defines the technical and business requirements for transmitting benefit enrollment data to Acme Corporation's benefit carriers. All carrier connections must comply with this specification.

2. Carrier Connection Summary

Carrier	Product	Method	Frequency	Format
Aetna	Medical	REST API	Daily	JSON
Delta Dental	Dental	SFTP	Weekly	CSV/834
VSP	Vision	CSV Upload	Weekly	CSV
MetLife	Life / AD&D	SFTP	Weekly	EDI 834
Unum	STD / LTD	REST API	Daily	JSON
Fidelity	HSA	REST API	Monthly	JSON
WEX	FSA	REST API	Monthly	JSON

3. Required Data Fields -- All Carriers

The following fields are required in all carrier transmission records:

Field Name	Type	Format	Required
Employee ID	String	EE-NNN	Yes
First Name	String	Text (50)	Yes
Last Name	String	Text (50)	Yes
SSN	String	NNN-NN-NNNN	Yes
Date of Birth	Date	YYYY-MM-DD	Yes
Plan Code	String	Plan identifier	Yes
Coverage Tier	Enum	See Appendix A	Yes
Effective Date	Date	YYYY-MM-DD	Yes
Termination Date	Date / Null	YYYY-MM-DD or blank	Conditional

4. Dependent Data Fields

Field Name	Type	Required
Dependent First Name	String	Yes
Dependent Last Name	String	Yes
Dependent SSN	String	Yes
Dependent Date of Birth	Date	Yes

Relationship	Enum: Spouse / Child / DP	Yes
Dependent Effective Date	Date	Yes
Dependent Termination Date	Date / Null	Conditional

5. Transaction Types

Transaction Type	When to Send	Required Fields
ADD	New enrollment or new dependent	All required fields
CHANGE	Tier change, plan change, address change	Changed fields + EE ID
TERMINATE	End of coverage	EE ID + termination date
REINSTATE	Return from leave / COBRA	EE ID + new effective date

6. Error Handling and Rejection Rules

Carriers may reject transactions for the following reasons:

- Invalid or duplicate SSN
- Invalid dependent ID or unrecognized dependent relationship
- Coverage effective date in the past (beyond 30-day backdating limit)
- Missing required fields
- Plan code not recognized by carrier
- Member ID already exists with conflicting data

On rejection, the integration layer must:

- Record the rejection with error code and message
- Flag the transaction for manual review
- Notify the benefits administrator within 24 hours
- NOT auto-retry without human review for SSN or dependent ID errors

7. Transmission Schedule

Medical and Disability carriers receive daily transactions by 11:00 PM ET.

Dental, Vision, and Life carriers receive weekly batch files on Friday at 11:00 PM ET.

HSA and FSA carriers receive monthly files on the 1st business day of each month.

Payroll integration: Deduction changes must reach the payroll system no later than 5:00 PM ET two business days before the next payroll cycle.

8. Demo Rejection Scenario

Transaction CT-10045: John Smith dependent enrollment rejected by Medical carrier.

Error Code: DEP-INVALID-ID

Error Message: Dependent ID DEP-003 not found in carrier member records.

Required Action: Verify dependent SSN and re-submit. If problem persists, contact carrier EDI team for manual member ID assignment.

(AI DEMO: This rejection scenario supports the exception resolution feature. AI should identify root cause, suggest corrective action, and generate a carrier support ticket.)
